

**Mandatory Language for Public Notice**  
**Routine Monitoring Violation Total Coliform Rule**

City of Parker/0430045 failed to collect the required number of bacteriological samples for coliform monitoring of the water distribution system during January/2016. This monitoring is required by the Texas Commission on Environmental Quality's "Drinking Water Standards" and the federal "Safe Drinking Water Act," Public Law 95-523.

Bacteriological samples are used to monitor water quality and indicate if the water is free of coliform bacteria. Our water system is required to submit 4 (four) bacteriological samples each month. Failure to collect all required bacteriological samples is a violation of the monitoring requirements and we are required to notify you of this violation.

If you have any questions regarding this violation, you may contact Jeff Flanigan at 972-442-6811.
