

Public Works

August 9, 2019

Dear Residents,

The water service will be interrupted temporarily on Tuesday August 13, 2019 for a few hours during the daytime, beginning at 9am. We expect to have the water back on by 4pm.

In the very near future we will be shutting down Gregory Ln at the bridge for a few days to make necessary repairs, we will have a temporary bypass arranged as indicated on the attached map. We will do our absolute best to make this as painless as possible, but we will need your assistance during this process. Please be respectful of the private property that you will be crossing, please stay on the path and do not go out into the field for any reason, the owner has been very generous in granting us this temporary use, let's please show our gratitude by being respectful of his property.

If you have any special needs or concerns regarding this process, please do not hesitate to contact me. I can be reached in the office at (972) 442-6811, mobile at (469) 446-6667 or by email at gmachado@parkertexas.us.

We apologize for any inconvenience this may cause and appreciate your cooperation and patience during this project. Thank you for your support.
